MICHAEL (mike) NEUDER

⊠ michael.neuder@gmail.com

- michaelneuder.github.io
- brooklyn, ny

EDUCATION

Harvard University Master of Science, Computational Science and Engineering	2020 - 2021 $Cambridge, MA$
University of Colorado Bachelor of Arts, Computer Science & Bachelor of Arts, Mathematics	2015 - 2020 Boulder, CO
University of Oxford Visiting Student, Mansfield College	2018 Oxford, UK

ACADEMIC EXPERIENCE

EconCS Group, Harvard University Research Assistant supervised by Dr. David C. Parkes	August 2019 - August 2021 $Cambridge, MA$
Santa Fe Institute Undergraduate Research Fellow: Summer 2018 REU	June 2018 - August 2018 Santa Fe, NM
Bradley Lab, University of Colorado Research Assistant supervised by Dr. Elizabeth Bradley	April 2017 - August 2021 $Boulder, CO$
Mozer Lab, University of Colorado Research Assistant supervised by Dr. Michael Mozer	$\begin{array}{c} \text{March 2017 - May 2019} \\ Boulder, \ CO \end{array}$

INDUSTRY EXPERIENCE

The Ethereum Foundation

Researcher – Applied Research Group (ARG)	New York, NY
Google	
Software Engineer (L3 \rightarrow L4) – Cloud Storage	August 2020 - March 2021 (Cambridge, MA)
Software Engineering Intern – Network Infrastucture	Summer 2020 $(remote)$
Software Engineering Intern – Flights	Summer 2019 (Cambridge, MA)
Software Engineering Intern – Mobile Device Management	Fall 2018 (Sunnyvale, CA)
Lockheed Martin & LASP ¹	Feb 2017 - Oct 2017
Software Engineering Intern	Boulder, CO

March 2022 Progent

PUBLICATIONS & CORRESPONDING TALKS (REVERSE CHRONOLOGICAL)

- (1) **Michael Neuder**, Mallesh Pai, and Max Resnick, "Optimizing Exit Queues for Proof-of-Stake Blockchains: A Mechanism Design Approach," in submissino to ACM Conference on Advances in Financial Technologies (AFT) 2024. https://arxiv.org/abs/2406.05124.
- (2) Zhou Fan, Francisco Marmolejo-Cossio, Daniel Moroz, **Michael Neuder**, Rithvik Rao, and David C. Parkes, "Strategic Liquidity Provision in Uniswap v3," *ACM Conference on Advances in Financial Technologies* (AFT) 2023. https://doi.org/10.4230/LIPIcs.AFT.2023.25.
- (3) M. Neuder, E. Bradley, E. Dlugokencky, J. W. C. White, J. Garland, "Detection of Local Mixing in Time Series using Permutation Entropy," *Physical Review E* 103, 2021. https://doi.org/10.1103/PhysRevE.103.022217.
 - Poster Presentation. 2021 European Geosciences Union General Assembly. April 13, 2021.

¹Laboratory of Atmospheric and Space Physics: https://lasp.colorado.edu/home/.

- (4) M. Neuder, D. J. Moroz, R. Rao, D. C. Parkes, "Low-cost attacks on Ethereum 2.0 by sub-1/3 stakeholders," Workshop on Game Theory in Blockchain, Conference on Web and Internet Economics (WINE) 2020. https://econcs.pku.edu.cn/wine2020/wine2020/Workshop/GTiB20_paper_8.pdf.
 - Conference talk. December 8, 2020.
- (5) M. Neuder, D. J. Moroz, R. Rao, D. C. Parkes, "Defending Against Malicious Reorgs in Tezos Proof-of-Stake," *ACM Conference on Advances in Financial Technologies (AFT) 2020*. https://doi.org/10.1145/3419614.3423265.
 - Conference talk. October 21, 2020.
- (6) M. Neuder, D. J. Moroz, R. Rao, D. C. Parkes, "Selfish Behavior in the Tezos Proof-of-Stake Protocol," Cryptoeconomic Systems (CES) Conference 2020. https://arxiv.org/pdf/1912.02954.pdf.
 - Conference talk. March 7, 2020.
- (7) J. Garland, T. Jones, M. Neuder, J. W. C. White, E. Bradley, "An information-theoretic approach to extracting climate signals from deep polar ice cores," *Chaos: An Interdisciplinary Journal of Nonlinear Science* 29:101105 (2019). https://doi.org/10.1063/1.5127211.
- (8) J. Garland, T. Jones, M. Neuder, V. Morris, J. W. C. White, E. Bradley, "Anomaly Detection in Paleoclimate Records using Information Theory," *Entropy* 20(12):931 (2018). https://doi.org/10.3390/e20120931.

AWARDS

2020 Computer Science Discovery Learning Award (University of Colorado).	
2019 Sieglinde Talbott Haller Scholarship in Mathematics (University of Colorado).	
2019 Honorable Mention: Computing Research Assoc. Outstanding Undergraduate Researcher.	link.
2017 Phi Beta Kappa (University of Colorado).	link.
2015-2020 President Joseph A. Sewall Esteemed Scholar Award (University of Colorado).	link.
2015-2020 Dean's List. (University of Colorado).	link.

PROFESSIONAL SERVICE

2023 & 2024 Columbia CryptoEconomics Workshop (CCE).	Organizing Committee. link.
2024 Workshop on Blockchains and Decentralized Finance (@EC).	Program Committee. link.
2024 The Latest in DeFi Research (TLDR) Confrerence.	Program Committee. link.
2024 Crypto Academic Summer School at Edge City.	Organizing Committee. link.
2023 dYdX MEV Committee.	$Member. \ link.$

BLOCKCHAIN ARTICLES (NON-PEER REVIEWED) (BY TOPIC)

Proof-of-Stake Ethereum Consensus o Issuance Issues – Tertiary Treatise. link. tweet. o Issuance Issues – Subsequent Soliloguy. link. tweet. o Issuance Issues – Initial Issue. link. tweet. o Concurrent Block Proposers in Ethereum, with Max Resnick. link. tweet. • Rollup-Centric Roadmap (2024 version), with Alex Stokes. link, tweet. • A set-theoretic view of Ethereum coteries. link. tweet. • Time, slots, and the ordering of events in Ethereum, with Georgios Konstantopoulos. link. tweet.

EIP-7251 (link) - Increase the MAX_EFFECTIVE_BALANCE

EII - 1201 (MIK) MICHASE THE MAX_EFFECTIVE_DREAMOE	
• A modest proposal, with Francesco D'Amato, Aditya Asgaonkar, Justin Drake.	link. tweet.
• Slashing penalty analysis; EIP-7251, with Barnabe Monot.	link. tweet.
• Validator consolidation in EIP-7251, with Francesco D'Amato, Mikhail Kalinin.	link. tweet.
• FAQ on EIP-7251, with Francesco D'Amato, Mikhail Kalinin, dAppLion.	link. tweet.

EIP-7547 (link) – Inclusion Lists

o No free lunch – a new inclusion list design, with Vitalik Buterin.

link. tweet.

• Uncondit	ional inclusion lists, with Toni Wahrstatter.	link.	tweet.
\circ Resistance	e is not futile; CR in mev-boost.	link.	tweet.
o Inclusion	lists: execution, consensus, & engine spec overview.	link.	tweet.
 Inclusion 	Lists PoC Specification.	link.	tweet.
\circ The Case	e for ILECTRA.	link.	tweet.
Liquid stak	ing & restaking		
o The Risk	s of LRTs, with Tarun Chitra.	link	tweet.
	on "two-tiered" staking, a native Liquid Staking Token design.		tweet.
_	le and direction of Lido attack vectors.		tweet.
<u> </u>		mik.	oweco.
	Extractable Value (MEV)		
	Proposer-Builder Separation (ePBS)		
•	hrine Proposer-Builder Separation, with Justin Drake.	link.	tweet.
	timeliness committee (PTC), with Francesco D'Amato.	link.	tweet.
	tion attacks in mev-boost and ePBS, with Francesco D'Amato.	link.	tweet.
	a post-ePBS world, with Jon, Hasu, Tomasz, Chris, Toni.		tweet.
	he infinite buffet.		tweet.
\circ Consider	the ePBS.	link.	tweet.
Relays			
	ic Relay Proposal, with Justin Drake.		link.
	nistic weekend.	link	tweet.
	enshrined PBS – an optimistic roadmap.	IIIK.	link.
	ic relays and where to find them, with Ankit Chiplunkar.	link	tweet.
_	ellations considered harmful, with Thomas Thiery.		tweet.
	,	111111.	• • • • • • • • • • • • • • • • • • • •
Miscellanea			
	-space distribution mechanisms, with Pranav Garimidi, Tim Roughgarden.	link.	tweet.
	n Tickets, with Justin Drake.		tweet.
	arned to stop worrying and love mev-burn, with Justin Drake, Toni Wahrstatter.		tweet.
o Timing C	Games: Implications and Possible Mitigations, with Caspar Schwarz-Schilling.	link.	tweet.
BLOCKCHA	AIN PRESENTATIONS, PANELS, & PODCASTS		
Presentat	ions		
	ern Staking – 9^{th} Annual IC3 Blockchain Camp. June 2024.		slides.
	$\frac{1}{1}$ ng the new staking? $-CBER$ Forum Annual Conference. May 2024.		slides.
	the Ethereum Union $(1/N \text{ perspective}) - ETHBoston. April 2024.$		slides.
